NCHSAA Regulations Student Athlete Pledge: As a student athlete, I am a role model. I understand the spirit of fair play while playing hard. I will refrain from engaging in all types of disrespectful behavior, including inappropriate language, taunting, trash talking, and unnecessary physical contact. I know the behavior expectations of my school, my conference, and the NCHSAA and hereby accept the responsibility and privilege of representing this school and community as a student athlete.

Parent Pledge: As a parent, I acknowledge that I am a role model. I will remember that school athletics is an extension of the classroom, offering learning experiences for the students. I must show respect for all players, coaches, spectators, and support groups. I will participate in cheers that support, encourage, and uplift the teams involved. I understand the spirit of fair play and the good sportsmanship expected by our school, our conference and the NCHSAA. I hereby accept my responsibility to be a model of good sportsmanship that comes with being the parent of a student athlete.

Football: Student athletes who are members of the school football team must read, review with parent/guardian, and sign an extra form entitled Safety List for Football Players. This form emphasizes specifics of tackling, blocking, running the ball, basic hitting (contact) position, fundamental technique, and fitting/use of equipment. This form will be available from your football coach and must be completed prior to practicing with pads.

NCHSAA Sportsmanship/Ejection Policy: We acknowledge that we, both the student and parent whose names appear below, have read and understand the NCHSAA Sportsmanship/Ejection Policy. We understand that the following types of behavior will result in an ejection from an athletic contest: fighting, taunting or baiting, profanity directed toward an official or an opponent, obscene gestures, disrespectfully addressing an official, flagrant contact.

1st ejection: 2 game suspension in all sports except 1 game for football (fighting is a four game suspension in all sports except 2 games for football).

2nd ejection: Suspended for remainder of sport season.

3rd ejection: Suspended from ALL athletic competition for 365 days from date of 3rd ejection.

Transportation for Athletic Events: All athletes must travel to and from athletic contests in transportation provided by the athletic department unless previous arrangements are made by the parents for exceptional situations or permitted by the coach. If permitted by the coach, written permission on approved CCS documentation must be given by the parent or guardian for the student/athlete to ride with an adult other than the parent/guardian.

Medical Authorization: As the parent or legal custodian of this student athlete, I grant permission for treatment deemed necessary for a condition arising during or affecting participation in sports, including medical or surgical treatment recommended by a medical doctor. I understand that every effort will be made to contact me prior to treatment. Also, permission is granted to release medical information to the school and athletic trainer or first responder.

Risk of Injury: We acknowledge and understand that there is a risk of injury involved in athletic participation. We understand that the student-athlete will be under the supervision and direction of a CCS athletic coach. We agree to follow the rules of the sport and the instructions of the coach in order to reduce the risk of injury to the student and other athletes. However, we acknowledge and understand that neither the coach nor CCS can eliminate the risk of injury in sports. Injuries may and do occur. Sports injuries can be severe and in some cases may result in permanent disability or even death. We freely, knowingly, and willfully accept and assume the risk of injury that might occur from participation in athletics.

Residency Requirements: The NCHSAA residency requirements state, "the residence of any student shall be deemed to be that of his or her parents or sole surviving parent. In the event the parents are separated or divorced, the residence of the student shall be that of the parent to whom custody has been awarded by a court of competent jurisdiction. No non-parental guardianship will be recognized where a student has a living parent. Any student proposed for a contest is eligible at the school to which the local board of education assigns him or her within the unit of residence of a parent or legal custodian within this state." A "legal custodian" is a person or agency awarded legal custody of a child by a court of law. LIABILITY WAIVER AND RELEASE

PLEASE READ CAREFULLY BEFORE SIGNING

I (the student-athlete) and we (the student-athlete and the student-athlete's parent[s]/legal custodian[s]) recognize that participation in interscholastic athletics involves some inherent risks for potentially severe injuries including, but not limited to, death, serious neck, head, and spinal injuries that may result in complete or partial paralysis, serious injury to internal organs, serious injury to all bones, joints, ligaments, muscles, tendons, and other aspects of the musculoskeletal system, serious injury to or impairment of other aspects of the body, or effects on the general health and well-being of the child. Although death and serious injuries are not common in supervised school athletic programs, it is impossible to eliminate all risk. Because of these inherent risks, we recognize the importance of the student-athlete following coaches' instructions regarding playing techniques, training, and other team rules. We recognize that we have a responsibility to help reduce that risk. We understand that student-athletes must obey all safety rules, report all physical and hygiene problems to their coaches, follow a proper conditioning program, and inspect their own equipment daily.

I (the student-athlete) and we (the student-athlete and the student-athlete's parent[s]/legal custodian[s]) understand that all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. Further, we understand that if the student-athlete is removed from a practice or

Gfeller-Waller NCHSAA Student-Athlete & Parent/Legal Custodian Concussion Information Sheet

What is a concussion? A concussion is an injury to the brain caused by a direct or indirect blow to the head. It results in your brain not working as it should. It may or may not cause you to black out or pass out. It can happen to you from a fall, a hit to the head, or a hit to the body that causes your head and your brain to move quickly back and forth.

How do I know if I have a concussion? There are many signs and symptoms that you may have following a concussion. A concussion can affect your thinking, the way your body feels, your mood, or your sleep. Here is what to look for:

Thinking/Remembering	Physical	Emotional/Mood	Sleep
Difficulty thinking clearly	Headache	Irritability-things bother you	Sleeping more than usual
Taking longer to figure things out Difficulty concentrating	Fuzzy or blurry vision Feeling sick to your stomach/queasy	more easily Sadness	Sleeping less than usual Trouble falling asleep
Difficulty remembering new information	Vomiting/throwing up Dizziness Balance problems Sensitivity to noise or light	Being more moody Feeling nervous or worried Crying more	Feeling tired

Table is adapted from the Centers for Disease Control and Prevention (http://www.cdc.gov/concussion/)

What should I do if I think I have a concussion? If you are having any of the signs or symptoms listed above, you should tell your parents, coach, athletic trainer or school nurse so they can get you the help you need. If a parent notices these symptoms, they should inform the school nurse or athletic trainer.

When should I be particularly concerned? If you have a headache that gets worse over time, you are unable to control your body, you throw up repeatedly or feel more and more sick to your stomach, or your words are coming out funny/slurred, you should let an adult like your parent or coach or teacher know right away, so they can get you the help you need before things get any worse.

What are some of the problems that may affect me after a concussion? You may have trouble in some of your classes at school or even with activities at home. If you continue to play or return to play too early with a concussion, you may have long term trouble remembering things or paying attention, headaches may last a long time, or personality changes can occur Once you have a concussion, you are more likely to have another concussion.

How do I know when it's ok to return to physical activity and my sport after a concussion? After telling your coach, your parents, and any medical personnel around that you think you have a concussion, you will probably be seen by a doctor trained in helping people with concussions. Your school and your parents can help you decide who is best to treat you and help to make the decision on when you should return to activity/play or practice. Your school will have a policy in place for how to treat concussions. You should not return to play or practice on the same day as your suspected concussion.

You should not have any symptoms at rest or during/after activity when you return to play, as this is a sign your brain has not recovered from the injury.

	A concussion is a brain injury, which should be reported to my parent(s) or legal custodian(s), my or my child's coach(es), or a medical professional if one is available.	
	A concussion cannot be "seen." Some signs and symptoms might be present immediately; however, other symptoms can appear hours or days after an injury.	
	I will tell my parents, my coach and/or a medical professional about my injuries and illnesses.	Not Applicable
	If I think a teammate has a concussion, I should tell my coach(es), parent(s)/ legal custodian(s) or medical professional about the concussion.	Not Applicable
	I, or my child, will not return to play in a game or practice if a hit to my, or my child's, head or body causes any concussion-related symptoms.	
	I, or my child, will need written permission from a medical professional trained in concussion management to return to play or practice after a concussion.	
	Based on the latest data, most concussions take days or weeks to get better. A concussion may not go away, right away. I realize that resolution from a concussion is a process that may require more than one medical visit.	
	I realize that ER/Urgent Care physicians will not provide clearance to return to play or practice, if seen immediately or shortly after the injury.	
	After a concussion, the brain needs time to heal. I understand that I or my child is much more likely to have another concussion or more serious brain injury if return to play or practice occurs before concussion symptoms go away.	
	Sometimes, repeat concussions can cause serious and long-lasting problems.	
	I have read the concussion symptoms listed on the Student-Athlete/ Parent Legal Custodian Concussion Information Sheet.	
	I have asked an adult and/or medical professional to explain any information contained in the Student-Athlete & Parent Concussion Statement Form or Information Sheet that I do not understand.
